

CoLOS[®] Software

Software & Solutions

Minimize waste, achieve compliance, and drive efficiency

Did you know?

You can reduce costs of manual data entry and message data maintenance by
90%

You can cut your changeover duration by
50%
and save hundreds of hours per year

You can ensure that your finished products are correctly marked and
100%
compliant with regulations

You can reduce your coding errors and cut up to
15%
off your total running costs

Automate packaging operations

CoLOS® Software and Solutions is a comprehensive packaging automation software that revolutionizes the way you design, produce, and manage your packaging operations. From message design and label creation to pallet tracking and ERP/WMS/MES integration, our software streamlines and digitizes every step of the packaging process, enabling you to:

Increase efficiency and productivity

Reduce errors and waste

Ensure compliance and traceability

Enhanced layers of security
| Cyber security

Gain real-time visibility and control

Optimize operations and make data-driven decisions

With **CoLOS®** Software and Solutions, you can transform your packaging operations into a seamless, automated, and connected process that drives business growth and efficiencies.

Key features

Message Design

Centrally design simple and complex messages that are compliant with regulations in a single user interface.

Design Control

Control approval workflows and security of the message designs.

Printer Performance

Gain complete visibility to printers performance for view faults, warnings and generate reports for quick analysis and decision making.

Mark & Read

Print, check, verify and inspect the messages, codes, products and packaging material for defects and defaults.

Data Management

Auto populate messages with SKU details and data from EPR master product table.

Overall Equipment Effectiveness (OEE)

Collect data from all the devices on the line including printers, scanners, cameras, PLC, Data systems etc. to create comprehensive reports on production and performance.

Key features

Promotional Coding

Add unique codes/identifiers to you products to closely track their promotions, personalize offerings and engage consumers for repeat purchase and loyalty.

IT/OT Integration

Enable real-time communication between Enterprise data and equipment/technologies involved in the packaging operations for better, collaboration

Production Control

Automate packaging operations on the line using a production control interface for operators.

High Availability

High Availability ensures that the production is up and running as per the demand of the facility by switching connections to a back-up server automatically without affecting the production line.

Auto Pallet Track | Manual Pallet Track

Design and print distribution compliant labels such as GS1-SSCC using design wizards with the correct data structures that can be read throughout the supply chain.

Multi-Site

Ensures that the software contracts, licenses and configurations of the sites/factories, stations, lines and devices for production printing is controlled and managed from a central hub remotely.

Intelligence beyond the mark.

Solutions from code to connected product

Our comprehensive packaging automation solution comprises several modules that work together to streamline and optimize your packaging operations. The following modules are designed to address specific pain points and requirements:

CoLOS® applications tailored to your needs and size

Part of the **CoLOS®** family of applications which are available in different bundle sizes for all your printer, line, and factory solutions. Our application modules come with information and automation interface add-ons to ensure seamless integration with your existing infrastructure.

CoLOS® Lite

For small businesses and early-stage start-ups

Design & store compliant labels in cloud, assign them to printers and print with a range of Markem-Imaje printers.

CoLOS® Base

For small businesses and early-stage start-ups

Design compliant labels, assign them to printers and print with a range of Markem-Imaje printers.

CoLOS® Line

For growing and small-medium businesses

Design compliant labels, integrate, control and automate printing operations on a single line.

CoLOS® Factory

For large businesses and global players

Design compliant labels, integrate, control and automate printing operations on multiple lines.

CoLOS® Sites

For Large Businesses spread across multiple locations

Centrally design compliant labels, integrate, control and automate printing operations across multiple sites/factories.

CoLOS® Embedded

For packaging equipment OEMs

Drive the widest range of primary, secondary and tertiary printers from Markem-Imaje simply by embedding the full power of **CoLOS®** software.

CoLOS® Software License	CoLOS® Lite*	CoLOS® Base	CoLOS® Line	CoLOS® Factory	CoLOS® Sites	CoLOS® Embedded
Printers	1 printer at a time	1 printer at a time	Up to 4 networked printers	Up to 25** networked printers	Up to 25** networked printers	Up to 4 networked printers

**Expandable in increments of 10 printers

Solution Services

Our team will identify which solution, or combination, best suits your needs and oversees all aspects of solution implementation, freeing you up to focus on other priorities. Project management by the Solution Services team ensures seamless and economical implementation of Packaging Intelligence solutions.

Discover	Deliver	Support
We provide workshops or site surveys to help define your requirements for successful projects.	We deliver complete turn key project delivery services. Taking full responsibility for printing technology, vision, software and integration solutions.	We offer a competitive range of support contracts for software, device (printer and cameras) and services.

About Markem-Imaje

Markem-Imaje, a wholly owned subsidiary of Dover Corporation, connects products and protects brands through intelligent identification, traceability and consumer engagement solutions. We offer the industry’s most comprehensive range of marking and coding systems seamlessly integrated with trusted software, services and consumables. Over 50,000 customers worldwide partner with us to help them unlock the power of information in codes.

With decades of proven expertise provided through the most extensive global network, we empower our customers to optimize supply chain efficiencies, achieve sustainability and compliance objectives, keep products safe and engage their consumers. This is intelligence, beyond the mark.

CoLOS® V7 is for Windows 10 32/64bit, Windows 11 64 bit, Server 2012/2016/2019/2022 64 bit
Minimum system requirements: 3GB RAM, Intel 2.6 GHz (multicore CPU preferred), 5GB free hard disk space
Production UI Browser Firefox 120.0 and onwards/Chrome 110 and onwards /Edge 110 and onwards

We reserve the right to amend the design and/or specifications of our products without notice.
